

Yash Kumar

Junior Frontend Developer

Profile

Entry level Software Engineer with knowledge in front-end and web technologies. I am a Front-End Developer with entry-level experience specializing in web development, user interface design, HTML, CSS, JavaScript and React.js. Adept at identifying opportunities to enhance front-end design and improve the user experience.

WHAT I'VE WORKED ON

Project 1 – LinkedIn-Clone

Tech-Stack – React.js, Redux, Firebase & Material-UI

Description – A LinkedIn clone made using React.js for the frontend and Firebase for the backend service, storage and authentication to make the project as much as flexible as possible.

Link – (<https://yashk786.github.io/linkedin-clone/>)

Project 2 - Food-Order App

Tech-Stack - HTML / CSS / React.js / JavaScript

Description - It's a simple dummy Food-Order app where we got a list of meals from which we can choose and we can then add these meals to the cart, also change their amount. We can also view the cart to see what's in the cart.

Link - (<https://yashk786.github.io/Food-Order-App/>)

Project 3 - My-Travel

Tech-Stack - HTML / Tailwind CSS / JavaScript

Description - A travel website is a website that provides travel reviews, trip fares, or a combination of both.

Link - (<https://yashk786.github.io/mytravel/>)

Project 4 - Expense-Tracker

Tech-Stack - HTML / CSS / React.js / JavaScript

Description - Expense-Tracker is a react based application, which is used to see our expense over by years.
